Free screenings once a month | Wednesdays at Contois Auditorium, 149 Church Street

## EERO SAARINEN: THE ARCHITECT WHO SAW THE FUTURE

**Special Guests:** Vermont State Architectural Historian Devin Colman, Architect Bob Burley, Designer-In-Charge of Saarinen's St. Louis Arch, Eric Saarinen, Director of Photography / Co-Producer

A renewed interest is emerging in mid-20th century architects and artists who exploded the comfortable constraints of the past to create a robust and daring modernist America. *Eero Saarinen: The Architect Who Saw the Future* examines the life of an architectural giant who envisioned the future. His sudden untimely death at age 51 cut short what continues to be one of the most influential legacies in American architecture, a body of timeless work that stands apart from the clutter of contemporary design and continues to inspire architects today.

2016, Directed by Peter Rosen, 70 Minutes
